

# A Significant Path To Build Your Own Nutrition Brand

Building Brands From The Inside Out!

**“Your one-stop-answer for contract manufacturing solutions from formulation design to manufacturing operations that meet all the regulatory compliance requirements.”**

**- Mukesh Punmiya, Director**

# | About Us

The Invision Group is uniquely placed in the modern Healthcare Industry with over 20 years of cumulative experience. Our endowment model aims to serve humanity, reach the majority population and prioritize fair access to medication for people of all diversity.

Succeeding in operational excellence and our presence being charted in prominent healthcare journals, Invision Pharma Limited is emerging as one of the fastest-growing pharma companies in India.

Alongside its advancing solid presence nationwide, with the potential to bring sustained long-term growth to the sector, Invision is partnering with countries abroad and expanding its global footprints.

## PHARMACEUTICAL SOLUTIONS

Our firm has occupied a premier position in formulating Nutraceuticals including Wellness & Sports Nutrition. Our goal is to help the population get fit and live long healthy lives. A healthy lifestyle keeps you fit & energetic, and reduces the risk of diseases.

**“You can’t help getting older but with the right nutrition you can grow old gracefully...”**

**Nutraceuticals:** From their nutritional value design, they have obtained humongous attention due to their health-promoting and disease-preventing functions. We develop next-generation nutraceuticals to improve overall health, delay the aging process, prevent chronic diseases, increase life expectancy, or support the structure or function of the body.

**Sports Nutrition:** We concentrate a significant amount on manufacturing sports supplements with good nutritional practices that will help athletes/sportspersons train hard, recover quickly and adapt more effectively with a low risk of illness and injury.

Our Health supplements consistently deliver quality assurance and high performance.

# | Our Certifications

All our products are manufactured to the highest quality standard. We operate a quality management system certified to GMP and US FDA standards.

# | Our Core Values

## Innovation

Without deploying price pressure we intend to deliver impactful product innovations. With active Research & Development work to introduce new products and advanced medicines, we aspire to continually strive towards effective, and fruitful new treatments. We ensure to reduce pressure on the healthcare system and healthcare workers with innovative drugs, potential cures, and lifesaving treatments.

## Transparency

Like Dalai Lama says, a lack of transparency results in distrust and a deep sense of insecurity. We are well aware that clients want to understand what they're going to buy before they buy it. We not only focus on product awareness but also on medical knowledge and data, so as to assure we provide products and services that fit best to our customers' needs.

## Accessibility

Established as a trusted entity in the community one of the main goals of our firm is to reach all the commoners. We intend to expand and promote sustainable and long-term access to medicines by collaborating with prominent healthcare facilities so as to bring forth a reduction in public health crises. By supplying cost-effective public health intervention, we aid to reduce healthcare spending and prevent productivity loss.

# | Private Labelling

Empowering you in building your own brand!

Producing your own brand labels (white label or private label) is never an easy task.

With a broad array of suppliers from all over the world, we have a plethora of experience and knowledge to assist you in launching your brand or expanding an existing market.

We work with both small and large businesses, and we're a major supplier to a number of well-known brands. We also offer a large number of smaller independent wholesalers.

We provide contract-manufacturing services and also personalized white-labeling solutions for already manufactured products. You can choose from a selection of turn-key opportunities from our catalog. We provide custom-made labeling solutions to distinguish your products from others and stand out from the crowd which is great for branding, marketing, and advertising.

**We have every type of nutraceutical supplement you may possibly want.**

We are committed to providing you with the most cost-effective and high-quality private-label supplements available. Our in-stock items are influenced by best-sellers and market research trends. We make certain that all of our formulae are of higher quality than what is currently "best-selling" on the market. It is our job as your nutraceutical product partner to make it simple for you to build a highly competitive formula in various fast and affordable formats like Capsules, Tablets, Effervescent tablets, Powders, Cosmetics, and Personal-care products.
